## Hit The Right Note.

The slim and customisable **CONCERTO** pendant has a deep baffle. And when we say deep, we mean deeper-than-Barry-White-deeeeeeeep. And while this luminaire from the Symphony range might be minimal in aesthetics, its list of attributes create quite a show. So, when it comes to wanting a minimal and modern touch to your space, this little number is sure to hit the right note.

## Timeless Design.

When designing the **PERENE** the concept went through thousands of product focus groups and creative agencies – before we arrived at... a ball. Ok, we jest, but the **PERENE** is indeed a classic design. And it's not just any ball. It's considered and focused engineering makes it a breeze to customise for your project – suspended, rod mounted, this size, that size, this colour. Just simple, honest, beautiful and basic design that'll elevate your space.

## The Custom Light That Isn't.

Local, handcrafted and customised. **HEIDE** is a tribute to Melbourne's ground-breaking creative heritage and is handcrafted from locally sourced materials. It was borne from a vision of wanting to provide tailoring – without all the tailoring, yet still marry an exceptional level of refined aesthetic and function. And the best thing about having a 'custom-non-custom' light? The lead times and approachable price are a work of art in themselves.

## Limitless Luminaires In One Light.

Let's face it – downlights have always been the not-so-cool part of the lighting arsenal. Well, The **OLIO** Downlight System has gotten a rather large hammer and smashed that thinking to bits. Not only is it a delicious-looking downlight but we had to stop counting at 127,456 when trying to figure out all the combos. Enjoy the flexibility of square, round, trim and trimless versions plus various finishes, outputs, colour temperatures, angles and sizes. An intelligent downlight system whose hallmark is its cutting-edge adaptability to create uniformity across a space.
